Dear Madam Isabelle,

RECEIPT OF DONATED ITEMS

I bring you greetings from the staff and students of Zogbeli TI Ahmadiyya Junior High School, Tamale. I am writing to officially acknowledge receipt of the donated items in the first and second containers for my School.

The first container finally got to Tamale on 7th August, 2023. The content in the container for my school included; stationary items, sports kits, kids toys, a few clothing and a lot of computers etc.

The content of the second container was conveyed to Tamale on 25th November 2023. Items for my school in this container were wooden chairs, 3 tables, one printer, scanner, and four monitors. There were lots of toys and other boxes labeled 'TO' and so I can not speak to the content therein.

I wish to thank you and your organization for solving our school's most impactful problem. With your donation, the school now has a functioning computer lab where computer lessons are taught. We now have a ratio of 2 pupils to a computer thus giving the chance for pupils to interact with the devices. This has ultimately improved on the teaching and learning outcome in the school. Again, documents of the school are now printed in school, thanks to your donation of a printer. The wooden chairs help to boost our furniture situation especially in our quiz room for staff and students.

Please find attached some pictures of the items in my school.

With my best regards.

Yours faithfully
